*Team Up
for the
Teppers*

On May 29, 2008, Debbi Tepper lost her life, leaving her husband George and children Jamie and Brandon behind. George has polycystic kidney disease and is on dialysis while awaiting a second kidney transplant. Already burdened with extensive medical expenses before this tragedy, the Teppers are now facing the foreclosure of their home.

Friends, relatives and neighbors are pulling together in an effort to save their home and cover George's expenses. *Please join us at Tepperfest as we strive to make a miracle happen for this wonderful family!*

For more information about this tremendous effort, go to DebbiTepper.com.
